

THERMAFLO

Training & Development Center

Where Steam Comes Alive

Experience Heat Transfer Like Never Before.

An immersive, hands-on environment that brings steam, hot water, and condensate systems to life.

4,500 sq ft
Training
Complex

6,000 lbs/hr
Steam
System

45+ Years
of Industry
Expertise

Our state-of-the-art facility is fully operational and designed for live demonstrations in a classroom setting.

Live Operational Systems:

- 125 psig Steam Distribution
- Main Drips, Separators & Meters
- Pilot-Operated & Electronic Steam Pressure Controls
- EC1000 Temp & Pressure Control Systems
- Glass Trap Station (Working Steam Traps)
- Clean Steam Generator System
- Zero Flash Shell & Tube Heat Exchanger
- Vacuflo Closed Loop Heat Transfer
- TH750 Domestic Hot Water System
- ETV Electronic ASSE1017 Blending Stations
- Fail-Safe Steam Control Valves
- Steam & Electric Condensate Return Pumps
- ASME Manufacturing Facilities Access

704.940.1228

2880 Fair Avenue

Newberry, SC 29108

What To Expect

Courses Designed for Real-World Applications

1-Day and 2-Day Training Programs

Each course includes a detailed manual and hands-on sessions.

- Steam & Hot Water Systems 101
- Steam/Boiler Room & Hot Water for the Design Engineer
- Steam & Hot Water Systems for Facilities Management
- High-Efficiency Steam for Users

The Thermaflo Advantage

- ✓ Hands-on experience with working systems
- ✓ Ideal for engineers, facility managers, & steam users
- ✓ Learn from 45 years of field experience
- ✓ Real-world insights + classroom support
